

---

Name: **KIM K. KOCK, P.E.**  
Title: Vice-President, NorthStar Engineering and Surveying, Inc.  
Education: Bachelor of Science, Civil Engineering, University of Nebraska  
Registrations: Professional Engineer – Colorado and Nebraska  
Affiliations: Construction Specifications Institute  
National Society of Professional Engineers  
American Society of Civil Engineers  
Colorado Rural Water Association  
Colorado Association of Stormwater and Floodplain Managers  
Experiences: NorthStar: 11 years  
KLH Engineering of Pueblo, Inc.: 2 years  
Others: 16 years

Mr. Kock has 29 years of experience in the design and construction administration of a wide variety of civil and structural engineering projects. These projects include major roadways, water and wastewater treatment and conveyance facilities, storm drainage and flood plain improvements, commercial, municipal and multi-family structures, and public and private site improvements. The former Director of Engineering Services for KLH Engineering of Pueblo, Inc., Kim and his partner, David Stravia, P.L.S., purchased the Pueblo office of KLH in 1996. Kim is committed to providing the client with quality civil and structural engineering services in a cost effective and timely manner.
